

LPP Future Tranche B

31.03.2019

The LPP Future investment group is suitable for investors with a minimum investment horizon of ten years. The strategic equities quota is 45%. The tactical equities quota varies between 40% and 50%, depending on market assessment. In addition, the portfolio holds a strategic share of 15% in real estate investments. The investment group invests in direct investments and funds according to the principle of open architecture in order to select the best investments. An investment process based on disciplined economic cycle analysis enables adaptation of the allocation to the prevailing market environment, resulting in superior long-term returns.

Compared with pure cash deposits, the price of investments in securities can move up or down, with the degree of fluctuation increasing in proportion to the size of the equities quota. While investors may benefit from a positive performance, they may also suffer losses if performance is negative.
